

Catalina-Rincon FireScape Agenda

Thursday, September 8, 2011, 9:30 am

Catalina Ranger District Office, Sabino Canyon Visitor Center (5700 N. Sabino Canyon Rd)

Goal is to work 9:30 to noon. Smaller groups invited to continue after lunch if necessary.

Introductions (*Brooke*)

- Purpose of this meeting (expanded group/not a formal IDT meeting for making decisions)
- Quick summary of where we are for anyone new

Analysis progress reports (*Steph*)

- Scoping comments summary
- Departure analysis/FSIM
- Fuels and Vegetation Specialist report
- MRDG (Minimum requirements decision guide for addressing possible Wilderness treatments)
- Biological Assessment
- NHPA (historic/cultural resources)
- Schedule adjustments for compliance processes

Update from LiDar Workshop (*Steph/Craig*)

Coordination with TEAMS (*Brooke/Cori*)

- Contact with locals?
- Materials provided/needed

UA science (*Don*)

Proposed bighorn sheep reintroduction (*Ben Brochu, AGFD*)

Review of August 15 session with Integrated Landscape Assessment Project (ILAP) (*Cori*)

- Use of products for analysis (compliance), research, and outreach. Separately funded project provides large-scale mapping/modeling to evaluate treatment/climate effects across Sky Islands.
- Who volunteered for what!

Discuss next steps (*All*)

- Analysis needs
- Immediate outreach opportunities
- Budgets
- Building support for implementation phases—what can we do with existing/projected levels of funding?

Set up next meetings (*Cori*)

- TEAMS in November (field trips and IDT session)
- Post-fire season map calibration (*Chris*)
- Other coordination

THANKS!
